Abstract

Abstract

Keywords: Cross validation

1 Introduction

We wanted to look at how the choice of k in k-fold cross validation affected the estimation of the prediction error.

Literature review.

2 Simulation Study

This is how you cite a paper: R Core Team (2022)

Simulations were performed using the R programming language (R Core Team (2022)).

Describe simulation studty with LASSO.

3 Results

We find blah blah

#Conclusions Early work found this. More recent work found this. Our work confirms that. We suggest. . . . .

Future work? What else would we like to do?

Acknowledgements

Everyone who took STAT338 in Fall 2022.
